Map: Mt Lofty - first used in 2018, mapped by Alex Tarr and conforms with ISOM 2017 specifications

Map Scale: 1:10,000 with 5 metre contours.

Mt Lofty is managed by Parks Vic and is beautifully maintained. It is popular with mountain bike riders. The KONA MTB event is held here every few years in the greener areas.

The terrain is typical of areas around Lake Eppalock, mostly very open running. There are some steeper slopes with 100m fall across the map, and vegetation on 20%. There are plenty of rock features but not many tracks and no gold mining.
