## Club History

The Club history has just been published. It consists of a 113 page A4 book and has many colour photos and some black and white ones.

Find out how the club started, how it has been involved in major international events, how the ever popular Saturday events evolved, how mapping has changed over the years, and much, much more, including who started to drive off with an occupant in the toilet he/she was towing.

The book is being sold at cost for \$20.00 (\$25.00 posted) and can be bought from the Secretary, Charles Brownridge. See him at an event or contact him at [charlesbrownridge@gmail.com](mailto:charlesbrownridge@gmail.com) or 54425324. Happy reading.

#### To All Event Organisers.....

When you run your event please make sure that each hire stick is used only once on the day or people who use them will not have their names listed in the results. When a stick is returned put it aside so it doesn't get mixed up with the ones that haven't been used yet. This will save the person doing the results a great deal of time and confusion. Thank you in advance.

#### Is there anybody out there?.....

The Club is looking for a few people who would be willing to learn how to download results from our Saturday events. At the moment this job is falling to a very small number of people and it has been quite onerous for them. This has happened because a number of those who learnt how to do it a few years ago are no longer regular event goers.

So..... the Club needs a few more volunteers who would be willing to learn how to do it so that the load can be shared over a wider number of members. It's not difficult when you know how (so Jim tells me). This is one way you would be able to put back into your club.

If you are interested let Charles Brownridge know and we will arrange a time when you can find out how to do it. [charlesbrownridge@gmail.com](mailto:charlesbrownridge@gmail.com) or phone 54425324 or see any or the committee at the next event you go to.

*Well, we've all got to start somewhere, but this young fellow doesn't look too promising.*

*But with the world orienteering championships coming up in July (in Lausanne, Switzerland), this bloke (now quite a bit older) is again favourite for another world championship gold medal. See next page...*

#### And another Note for Course Organisers

The water tank on the trailer can now be drained. Underneath the trailer at the back, there is a small brass bung on the line where it comes out of the tank (left hand side of the tank, looking towards the front). You just need to unscrew the bung, let the water drain out, replace the bung and refill the tank with fresh, clean water.

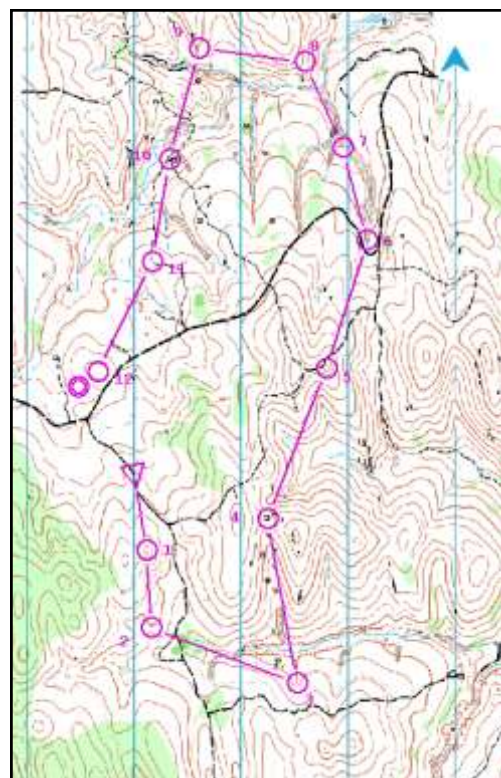

## State Series 5 (QB3)

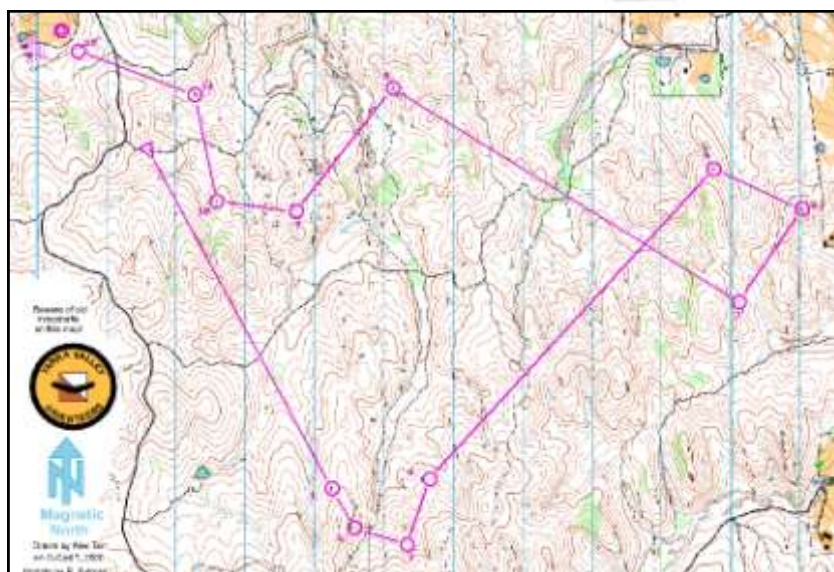

Three days of Orienteering on three great maps over the Queens birthday long weekend.

Thierry Gueorgiou is a French orienteer who has won more than 20 gold medals in international competitions, including the World Orienteering Championships (WOC) middle distance event seven times: 2003–2005, 2007–2009 and 2011.

1st - 8th July World Masters Orienteering Champs Germany  
14th - 22nd July World Orienteering Champs Lausanne, Switzerland.

## Bryan Keely laid low by injury after winning selection for the WOC team

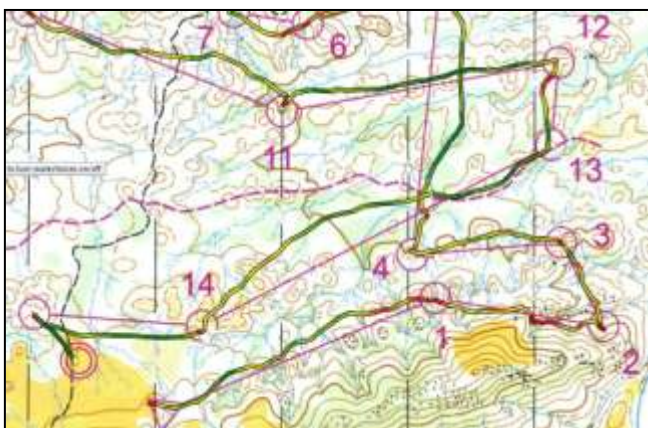

Bryan was selected for the National WOC team! He clinched his selection with the fastest Australian run in the Long Distance selection race at Newcastle.

Its been many years since the era when Bendigo orienteers Jim and Eddie Wymer regularly represented Australia at World Championships. Lets hope Bryan's breakthrough heralds a new era of regular appearances by Bendigo orienteers in Australian teams, not least because injury will prevent Bryan competing this year.

A stress fracture has halted his running and there was little likelihood it would recover in time for the World Championship. Bryan had the same misfortune after winning selection for the Australian Junior team. I am sure we all wish him well in his recovery and hope he solves the problem before next selection season.

**Interstate travellers:** A couple of local orienteers decided to take a couple of extra days leave and spend the Queens Birthday weekend orienteering in the spur gully terrain of the Flinders Ranges. Three events on offer included the South Australian Night and Middle Championships. One Bendigo local has apparently been convinced that despite years of accurate navigation in local Bendigo events, he still does not really know how to navigate in spur gully terrain. The map below shows the route of someone who knows what he or she is doing.

All this talk of travelling giving you itchy feet? Grab your Orienteering gear and your northern hemisphere compass. The '[World of O](#)' website gives a comprehensive list of forthcoming events, from 10 days in the South Urals in Russia to Arctic midnight Orienteering in Greenland.

### Overseas travellers:

Four Bendigo orienteers are touring the season of orienteering events in Europe. At the time of writing, Jim, Laurinna, Evan and Ilka are overseas or about to leave. Between them they will compete in a very interesting assortment of races and terrains. Younger runners will be at the World University Championships on the east coast of Spain. Your correspondent believes only Jim will be running at the World Masters Championship in Germany. Other events on the list of our absent foursome include the Croatian Open in complex limestone depression country, Tallin O-week in Estonian glacial country, World Cup races in Switzerland, O-Ringen in Halland Sweden, and this coming weekend (17 July) the two big relay events near Helsinki in Finland - Venla and Jukola. For the first time ever, there is an all Australian team in both events. And there is a Bendigo runner in both teams. For the curious, we have the opportunity to watch the start of the Jukola relay at 6.00am this Sunday morning. Maybe you can catch a glimpse of a local runner in the pack as it heads out into the forest.

Full details are on the [Orienteering Australia web site](#).
