1. 2018 Planning

- 2017: 39 bush events plus 13 PSC events (over-committment?)
- main bush season events during off-daylight savings, ie April 7th to Sept 29th (26 weeks)
- other events (PSC, Shorts, Specials) schedule outside of bush season and don't publicise until after organising volunteers are in place
- commit to one state series event only

2. Victorian Fixture (Neil Barr)

- four template options provided by OV - general consensus around option 3 or 4, with less emphasis on a "state series".

3. General business

- Shed update including MOU. Planning is going nowhere fast. Nigel back to exploring other options
- State Series planning (Andrew Wallace) - all on track
- Ray's Outdoors are now selling thumb compasses
- Leon Keely has asked if he can sell honey at our events. Agreed that this is okay.
